REVIEW OF THE IRON TRADE. Sales of Steel Rails for 1906 De-

Livery Break All Records.

Cieveland, O., Sept. 7.—The Irion Trade Review, in its current issue, says:

Sales of rails since the price of 23 for 188 delivery was announced last week have been tremendous, breaking all records and transisting substantial evidence of very great prospective. It is estimated that these orders for rails for 186 placed within a week will amount to \$0.00 tons and orders for several hundred thousand tons are pending.

Although the United States Steel Corporation has booked very large orders, it has not alone enjoyed the unexpectedly heavy business from the railroads.

The Colorado Fuel and Iron Company reports its entire rail cutput sold for the year, and the Tennessee Coal, Iron and Reilroad Company, the Lackawanna Steel Company, and other interests are well supplied with orders. Among the tookings of the last week were the following:

Chicago and Northwestern, 70.000 tons; Burlington, 10.000; Santa Fe 50.000; Milwaukee and St. Paul, \$5.000; Milwaukee and St. \$5.000; Milwaukee and livery Break All Records. ders. Among the tookings of the last week Were the following:

Chicago and Northwestern, 70,000 tons; Burnington, 50,000; Santa Fe 50,000; Milwaukee and St. Paul, 55,000; Wiscinsin Central, 22,000; Great Northern, 60,000.

Accompanying the orders for ratio are many orders for cars and locumetives. The Pennaylvania obstein has ordered 15,000 steel and wooden cars are pending. The announcement of an advance of \$2 per ten on structural shapes, although not expected, is received by the trails as being justified by market conditions.

Orders for more than 20,000 tons of structural steel were placed at Chicago last week. The market for pig iron is rather quiet, but in nearly all delling centers there is an improved tone. rearly all selling centers there is an improved tone.

The demand for plates and steel bars continues very strong, and the trade will not be surprised the hear of an advance on these products at an early day.

The American Shipbuilding Company has placed contracts for plates for three large freighters, and additional contracts are pending. There is already considerable complaint about ear shortage. This is particularly true concerning coke, for which the demand has become so atreng that the railreads are finding it difficult to give prompt shipment. Some jobbing interests also compinin that they cannot get cars promptly.

SIGNERS MAY WITHDRAW NAMES FROM SALOON PETITION

Ruling Deprives John Kuchenbuch of a License

Through a decision of Excise Commissioner Mulvikili that eleven persons who had signed a petition for and a protest against the establishment of a saloen at the corner of Easton avenue and Stewart place, might withdraw their names from the former instrument, John Kuchenbuch the applicant, failed to secure a license yesterday afternoon.

Thirty-eight owners of property in the block signed the two papers, twenty-eight protesting against the establishment of the saloon and twenty in favor of the application. Eleven signed both for and against the dramshop. The protest was circulated by the Anti-Saloon League and the petition by Kuchenbuch.

On the face of the petition is printed a caution that signers cannot withdraw their names. When it was learned that Kuchenbuch had a majority of the property holders, the eleven who had affixed their names to his petition and also to the protest asked permission to withdraw their signatures from the petition, Kuchenbuch demurred, but Mr. Mulvikill held that the signers had the right to do so.
